“*"A fantastic friend back in the day, one of my best! When I think of Brian I first remember his smile, trademark laugh and the time we spent together in the children and teen choirs at Clintwood Baptist. The right words are hard to come by when I think of his passing I can only say that I wish Gaye and family the best as you work through this most difficult time, my prayers are with you."*

“*"Myron I am truly sorry for the passing of Brian. I have relieved a many times since we ran into you all down at Skaggs Hole that morning. I could see in Brian's eyes as to how proud he was to be with his big brother. I am sure your mom is torn to pieces with thinking there is no way to go, but there is and that is to put her sorrow on Jesus back and allow him to carry her burdens through this terrible time of sorrow. As far as Big Brother you too will need to put your sorrows on Jesus back and allow him to guide you also. Myron I would attend services but the flowers really make it hard for me to breathe. I am sure you will be there for your mommy an she as well be there for you. I saw him just the other day and he had his truck all shined up as if he might have been going out with some one. Myron call me if I can be of any help. May God bless you and yours."*

“ Brian was a great person and very dear friend. We had some wonderful times together in high school and before I left Southwest Virginia in 1988. One of my favorite memories was playing together in Clintwood's air band version of the Blues Brothers back in the early 1980s. Brian played bass and I was on keyboards. I have a picture of the two of us performing which always makes me smile. Although I have not seen Brian in many years, he always remained near and dear to me in my heart and mind. You were loved by all that knew you, my friend. We are hurting from our lost, but know you have traveled to a better place where peace and love abound. My deepest condolences to Gaye, his children, his mom, Myron and Pat and their families. My thoughts and prayers are with you always. Ajax”
